

Mothers Day out Program

Do you want to take a yoga class on a regular basis, have some Mommy time (or Daddy time), or just clean your house or go grocery shopping without your little ones at your feet? And do you want your kids to have fun in a safe, fun and nurturing environment? We now have a 3 day per week half day program for potty trained children ages 3 -5 yrs.

The purpose of the Mother's Day Out program is to offer a setting that provides a loving, caring and safe environment for young preschoolers. The goals are to care for their physical needs, to provide age appropriate teacher directed activities and socialization with peers. Stories and music are incorporated into each day, as well as a thematic art project and group time each day. Learning to share and take turns, feeling comfortable without their parents, and being involved in activities suited for their age group are the goals of the program.

Schedule

September - May
